

**Marco** is one of the major firms in the building construction industry in the Atlantic Canada Region, involved in the commercial, retail, institutional, and light industrial sectors as project managers, general contractors, and developers. Due to our rapid growth, we have an immediate opening in Halifax for the following position.

**Safety Manager**

The ideal candidate for this project specific position would possess the following: CRSP or CHSC designation; a thorough knowledge of safety standards, codes, and practices; 3-5 years of demonstrated work experience as a construction safety supervisor; excellent oral and written communication skills; and a good working knowledge of computers.

The Health and Safety Manager will oversee and coordinate all aspects of safety for the Company's activities across the Maritime Provinces, including safety at the construction jobsites, with a goal of helping the Marco Group obtain and maintain a "best in class" safety record.

**Responsibilities:**

- Provide experience, knowledge, and advice in areas of legislation, OH&S regulations and client HSE policies, while monitoring corporate HSE performance
- Perform formal and informal inspections/audits
- Facilitate/encourage a culture of safety on the project site
- Perform HSE orientations and training
- Ensure compliance with all applicable safety regulations
- Identify and implement corporate safety policies, programs and priorities
- Incorporate strategies and appropriate training and other prevention tools
- Compile, prepare and update statistical reports, including information for pre-qualification for construction projects
- Provide necessary support to managers, supervisors and health and safety coordinators to achieve their objectives
- Develop and implement prevention programs for construction sites, including oversight of prevention agents and the safety plans and activities of subcontractors
- Ensure compliance with federal, provincial and customer safety standards
- Incident investigations

**Requirements:**

- College diploma in environmental health and safety or sufficient studies in health, safety and prevention
- Member of a recognized professional association in occupational health and safety, or working toward such designation as CRSP, and/or CHCC would be considered an asset

All candidates must be willing to travel, have a strong work ethic, a relentless drive to fulfill commitments, and tremendous enthusiasm. This is a great opportunity for individuals who wish to join a strong, successful and highly respected, growing team. Marco offers an attractive compensation package, full health benefits, pension plan, continuing education, wellness program and the opportunity for advancement.

If this opportunity matches your experience and interest, please forward your resume in confidence to [ccarter@marcogroup.ca](mailto:ccarter@marcogroup.ca) or fax 902-481-6501. We thank all applicants for their interest; however, only candidates selected for an interview will be notified.
